Guest Lecture on Series and Sequences

Subject :Business Mathematics

Date – 14/09/2019 **Day** – Saturday

Topic – Series and Sequences

An In-House guest lecture was organized on 14th September 2019 for the students of FY BBA and FY BBA(IB) on the topic "Series and Sequences" The Resource person for this seminar was Mr. Sushil Sawant - Faculty of Christ College Pune. He started off with the basic concepts of arithmetic which was already known and familiar to the students thus creating a comfortable atmosphere. After revising the basics, he then gradually briefed the students about the series and sequences of Business Mathematics by solving a few sums with them. Once the concept was clear the students were given a few sums to solve themselves. Mr Sawant gave a patient ear to all doubts and queries. The lecture lasted for an hour and half. Overall it was an interactive and interesting session giving the students a sense of satisfaction on clearing and getting their concepts right.

In House Guest lecture

Puja Jindal

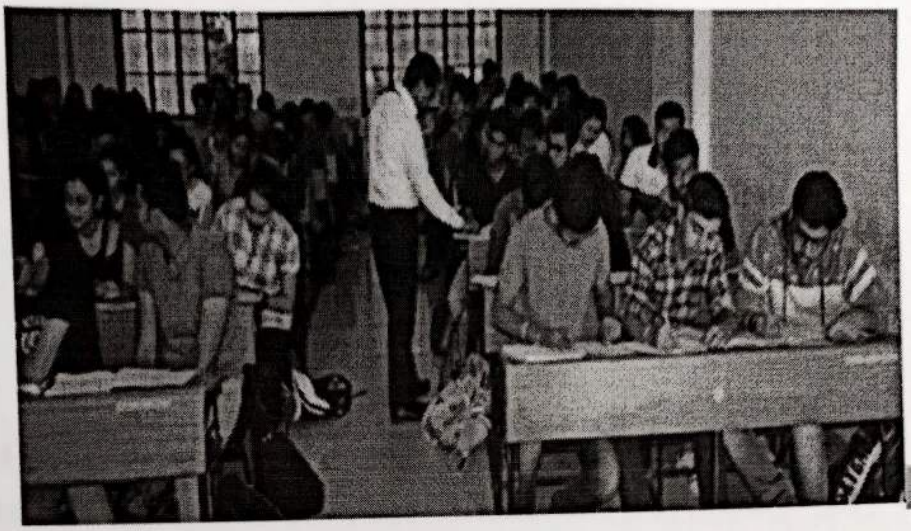

Dear Sir/ Ma'am,

You are requested to be the resource person to deliver an In House guest lecture for the students of FYBBA and FYBBM on the topic "Sequences and Series" of Business Mathematics.

Your lecture has been scheduled on 14th September, Saturday as a combined lecture in 2nd and 3rd slot for FYBBA & FYBBM.

Looking forward to your support

Regards
Puja Jindal

Summary / Feedback:

The guest lecture delivered by [Name] on series and sequences offered valuable insights into these fundamental mathematical concepts. The lecture proved to be highly informative and thought-provoking, providing a solid foundation for further exploration and understanding in this field. Attendees gained practical knowledge about the different types of sequences and series, convergence tests, and their applications in different branches of mathematics.

Overall, the lecture not only deepened our understanding of series and sequences but also provided a platform for further discussions and applications in our academic pursuits. The key takeaways have empowered the attendees with the necessary tools and knowledge to approach and solve complex mathematical problems using series and sequences.
