Feedback Summary

Name of the Team	Share your thoughts on the conduct of such activities for the students of business and management.	Suggestions, Recommendations or Comments
Money Magnates	This activity was very very helpful for us students to discover investment and learn about it so that we could make profits	One of the best competitions
Indiana Traders	Yeah it is very important to conduct this type of activities for financial knowledge among students..	This was a great competition . Next time should be on real money ..
Team Ogygoptynx	Activities such as these are really helpful and out of the box. For us management students not only are these challenging but also a great way to see how things work practically without all the risks.	Overall, it was a great activity, though one later realises that it is not the urge to win that counts but the determination to keep going till the end. Long events like these demand commitment and enthusiasm. Overall, it was a great activity all thanks to the organising committee and our constant guide Professor Blesson.

Dynamite	It is great learning experience one understand how the market works the volatile nature of the market moreover the decision which one needs to take makes the whole experience challenging	During these 7 days there were a lot of changes that took place in the market . More than looking at it as a competition it was a great learning experience about how one wrong /right decision can make you lose money or gain money. Thank you for conducting this activity
Compounders	It really helps students of business & management by getting knowledge about the business markets, stocks and so on. Also helps to improve in business skills.	Could've extended more days of trading.
Hang Seng	This activity was really helpful, as from this we could learn more about trading, the strategy to be used, and how to understand the graph and invest rightly. These activities should be conducted more often.	Moneybhai site is pretty laggy, so sometimes the accurate prices is not shown.
Market Wizards	Such activities provide practical knowledge and encourage to know more about the market conditions, government policies, trade practices and investment behaviour.	More participation of students for encouraging them with the competition.
Binary Brothers	These activities should be conducted as it increases the students extra knowledge	First it should be taught and then maybe we will perform more correctly
