**Class Policies**

1. Strictly adhere to the class policies of the University/Department
2. Late comers/joiners will not be entertained.
3. Active and voluntary participation is expected during discussions.
4. Students are required to avoid using mobile phones during the session.
5. Assignments and deliverables are to be completed as directed by the instructor and outlined in the syllabus.
6. Late submission of CIA assignments and the asynchronous assignments will affect the overall CIA marks for the subject.

| | |
|---|---|
| Course Description | This course aims at laying down the foundational concepts of Physical and Analytical Chemistry. Starting with phase equilibrium, ideal and real solutions, it move towards conductometry, colorimetry and column chromatography. It enables the students to develop practical knowledge and solve real life problems related to the same concept. |

1) **SYLLABUS:** *Detailed syllabus to be entered as per the approved by SPPU*

| UNIT | DETAILS | HOURS |
|---|---|---|

| | | |
|---|---|---|
| 1 | **Phase equilibrium**<br>Introduction; definitions of phase, components and degrees of freedom of a system; stability of phases, criteria of phase equilibrium. Gibbs phase rule and its thermodynamic derivation, phase diagrams of one-component systems- water, carbon dioxide and sulphur systems, problems | 9 |
| 2 | **Ideal and real solutions**<br>Introduction, chemical potential of liquids - ideal solutions, ideal dilute solutions - Raoult's and Henry's Law, liquid mixtures, phase diagram of binary systems : liquids - vapour pressure diagrams, temperature composition diagrams, liquid-liquid phase diagrams, solubility of partially miscible liquids-critical solution temperature, effect of impurity on partially miscible liquids, Problems. | 9 |
| 3 | **Conductometry**<br>Introduction, Electrolytic Conductance, Resistance, conductance, Ohm's law, cell constant, specific and equivalent conductance, molar conductance, variation of equivalent and specific conductance with concentrations, Kohlrausch's law and its applications, conductivity cell, conductivity meter, Whetstone Bridge, determination of cell constant, conductometric titrations (strong acid-strong base, strong acid-weak base, weak acid strong base) and Numericals. | 6 |
| 4 | **Colorimetry**<br>Introduction, interaction of electromagnetic radiation with matter, essential terms: radiant power, transmittance, absorbance, molar, Lamberts Law, Beer's Law, Lambert-Beer's Law, molar absorptivity, deviations from Beer's Law, Colorimeter: Principle, Construction and components, Working. Applications–unknown conc. By calibration curve method, Determination of unknown concentration of Fe(III) by thiocynate method, Numericals | 6 |
| 5 | **Column Chromatography**<br>Introduction, Principle of Column Chromatography, Ion Exchange Chromatography: Ion exchange resins, action of ion exchange resin (Ion exchange equilibria, Ion exchange capacity), Experimental technique, Application: i) Separation of Metal ions / non-metal ions on Ion Exchange Chromatography ( Zn(II) and Mg(II), Cland Br- ), ii) Purification of water, Adsorption Chromatography – Liquid solid chromatography: Introduction, the technique of conventional chromatography, column packing materials, Selection of solvent for adsorption chromatography, Adsorption column preparation and loading, Application – Purification of anthracene, Size Exclusion Chromatography | 6 |
| | **TOTAL HOURS:** | 36 |

**2) TEXT BOOKS**

*T1. Tech-Neo Publications – Physical and Analytical Chemistry*
*T2 Nirali Publications – Physical and Analytical Chemistry*

Christ College-Pune ★ Vision to Excel ★ ख्राईस्ट महाविद्यालय-पुणे

REFERENCE BOOKS
1. Atkins' Physical Chemistry by Peter Atkins, Julio de Paula, James Keeler -11th edition
2. Principles of Physical Chemistry, S.H. Marron and C. F. Pruton4th ed., Oxford and IBH publishing company / CBS, new Delhi

## 3) COURSE OBJECTIVES

- To teach basic facts about physical and analytical chemistry, and should be able to display knowledge of basic lab practicals.
- To teach the concepts of phase equilibrium and ideal solutions.
- To teach how to perform experiments

## COURSE OUTCOMES (COs)

CO1: Student will be able to explain basic concepts/principles of physical and analytical chemistry.

CO2: Student will be able to impart practical skills and learn basics behind experiments.

CO3: Student will be able to prepare background for advanced and applied studies in chemistry.

## 4) DELIVERY / INSTRUCTIONAL METHODOLOGIES

| | | |
|---|---|---|
| ✔Chalk & Talk | ✔PPT | ✔Student seminars |
| ✔Web resources | Guest Lecture | ✔Group Activity |

## 5) ASSESSMENT METHODOLOGIES

| Assignments | Closed book tests | Open book tests |
|---|---|---|
| ✔Quiz | ✔Student Presentation | ✔Assignment |

### SECTION IV

**ASSESSMENT 1: CIA1 [THEORY BASED]**

**Assessment description:**

| Assessment component | CIA1[THEORY _BASED] Online Test |
|---|---|
| Portion for the Quiz | Unit 1 |
| Mode of conduct | Online |
| Technology tool used | Google Classroom |
| Type of questions | 10 MCQ |
| Maximum marks | 15 Marks (will be converted to 5) |
| Duration | 30 minutes |

Class College-Pune ★ Time to Excel ★ प्रियदर्शिनी महाविद्यालय, पुणे

| | |
|---|---|
| **General Instructions** | ● Each question carries 1 mark<br>● No Re-test<br>● Test will be conducted in the Google Classroom |

**Evaluation rubrics:**

| Component of Evaluation Rubrics | Maximum Marks |
|---|---|
| Accuracy of answer | 10 |
| On time Submission | 5 |

**ASSESSMENT 2: Assignment**

**Assessment description:**

| | |
|---|---|
| **Assessment Component** | Assignment |
| **Submission mode** | Online |
| **Maximum marks** | 20 Marks converted to 5 |
| **Assignment Description** | Student has to write an assignment on given topic |
| **General Instruction** | Late submission will be not be entertained. |

**Evaluation Rubrics:**

| Evaluation Rubrics | Max marks |
|---|---|
| **R1:** Content | 10 |
| **R2:** Reference and on time submission | 10 |

**ASSESSMENT 3: PRESENTATION**

**Assignment description:**

| | |
|---|---|
| **Assessment Component** | PPT Presentation |
| **Test Portions** | Unit 4 |
| **Mode of Test** | Individual Presentation |
| **Date of exam** | |
| **Maximum marks** | 20 Marks converted to 5 |

| Duration | 10 Minutes for Each individual |
|---|---|

**Evaluation Rubrics:**

| Evaluation Rubrics | Max. Marks |
|---|---|
| **R1:** Content of the PPT presented | 8 |
| **R2:** Presentation skills | 8 |
| **R2:** Aesthetics | 4 |

**ASSESSMENT 4 : TEST [Internal Assessment]**

**Assignment description:**

| | |
|---|---|
| **Assessment Component** | TEST 1 and TEST 2 |
| **Test Portions** | TEST 1 on unit 1and 2 and TEST 2 on All units |
| **Mode of Test** | Examination |
| **Date of exam** | |
| **Maximum marks** | 35 Marks |
| **Types of questions** | Concept based questions.<br>Problem based questions. |
| **Duration** | 2 hours |
| **General Instruction** | ● Students has to prepare all units for exam which help them to get insights of External exam. |

| Score | Impression |
|---|---|
| 35-30 | Proficient |
| 30-25 | Good |
| 25-18 | Satisfactory |
| 18-14 | Need to improve |
| 14-0 | Fail |

## SECTION IV

### ASSESSMENT 1: TED (Team Efficiency Design)

**Assessment description:**

| | |
|---|---|
| **Assessment Component** | MCQs |
| **Assignment Topic** | A Comparative Study of OSI model & tcp/Ip model |
| **Nature of the assignment** | Group Discussion |
| **Maximum marks** | 20 Marks converted to 5 |
| **Assignment Description** | Preparation topics are given before conduction |

**Learning outcomes:**

**LO1:** Team Work
**LO2:** Decision Making.
**LO3:** Efficiency

**Evaluation Rubrics:**

| Evaluation Rubrics | Max marks | Criteria [Mark] | | | |
|---|---|---|---|---|---|
| **R1:** Solving skills | 20 | Proficient in Solving [15-20] | Good [14-10] | Needs Improvement [5-9] | Poor [0-4] |

### ASSESSMENT 2: TEST [Class Test-2]

**Assessment description:**

| | |
|---|---|
| **Assessment component** | CIA2 |
| **Portion for the Quiz** | Unit 1,2,3 |
| **Mode of conduct** | Online |
| **Technology tool used** | Google Classroom |

Chintamani College-Pune

| | |
|---|---|
| **Date of exam** | |
| **Type of questions** | 20 MCQ |
| **Maximum marks** | 20 Marks (will be converted to 5) |
| **Duration** | 30 minutes |
| **General Instructions** | ● Each question carries 1 mark<br>● No Re-test<br>● Test will be conducted in the Google Classroom |

**Learning outcomes:**

LO1: Understand the concept of client side scripting
LO2: Understand the concept of server side side scripting

**Evaluation rubrics:**

| Score | Impression |
|---|---|
| 20-17 | Proficient |
| 15-17 | Good |
| 10-6 | Satisfactory |
| 1-6 | Need to improve |

**ASSESSMENT 3: (Knowledge sharing)**

**Assessment description:**

| | |
|---|---|
| **Assessment Component** | MCQs |
| **Assignment Topic** | **Network Layer** |
| **Nature of the assignment** | Group Discussion |
| **Maximum marks** | 20 Marks converted to 5 |
| **Assignment Description** | Students will Prepare topic which is given before conduction..one group will prepare question for other two group |

**Learning outcomes:**

**LO1:** Team Work
**LO2:** Decision Making.
**LO3:** Efficiency

**Evaluation Rubrics:**

| Evaluation Rubrics | Max marks | Criteria [Mark] | |
|---|---|---|---|
| **R1:** Solving skills | 20 | Good [20] | Poor [0] |

## ASSESSMENT 4: PPT PRSENTATION [THEORY BASED]

**Assignment description:**

| | |
|---|---|
| **Assessment Component** | PPT Presentation |
| **Test Portions** | Unit 5 |
| **Mode of Test** | Individual Presentation |
| **Date of exam** | |
| **Maximum marks** | 20 Marks converted to 5 |
| **Types of questions** | |
| **Duration** | 10 Minutes for Each individual |
| **General Instruction** | ●Topic confirmation prior presentation.<br>●No repetition of Topic<br>●Absentee for presentation leads to zero marks |

**Learning outcomes:**

**LO1:** Improve Personality development and skill development
**LO2:** Learn new Tools and animation techniques for preparing the PPT.

**Evaluation Rubrics:**

| Score | Impression |
|---|---|
| 20-17 | Proficient |
| 15-17 | Good |
| 10-6 | Satisfactory |
| 1-6 | Need to improve |

## ASSESSMENT 5 : TEST [Class Test-2]

**Assignment description:**

| | |
|---|---|
| **Assessment Component** | CIA-5 |
| **Test Portions** | Unit 4,5 |
| **Mode of Test** | Examination |
| **Date of exam** | |
| **Maximum marks** | 20 Marks |
| **Types of questions** | Concept based questions.<br>Problem based questions.<br>Practical based questions. |
| **Duration** | |

| COURSE NAME: **Problem Solving Using Computer and 'C' Programming - I** | COURSE CODE: **CS-111** | | | |
| COURSE TYPE: **CORE** | **CONTACT HOURS: 30** | | | |
| CORRESPONDING LAB COURSE (IF ANY): **YES** **Course Code: CS-113** | **CREDIT** | **T** | **P** | **Total** |
| | | 3 | 2 | 5 |
| **COURSE INSTRUCTOR(S) NAME:** **Miss. Kirti A. Nikam** | **CONTACT DETAILS:** Department of Science Email: kirti.nikam@christcollegepune.org Mob: 9552269464 | | | |

**Class Policies**

1. Strictly adhere to the class policies of the University/Department
2. Late comers/joiners will not be entertained.
3. Active and voluntary participation is expected during discussions.
4. Students are required to avoid using mobile phones during the session.
5. Assignments and deliverables are to be completed as directed by the instructor and outlined in the syllabus.
6. Late submission of CIA assignments and the asynchronous assignments will affect the overall CIA marks for the subject.
7. Each theory session is followed by a lab session for which the students are expected to implement the given task by the instructor. Lab outputs will be evaluated by the instructed in the same week.
8. Students being absent for 2 consecutive lab hours without prior information will not be considered for further lab sessions without the HOD's consent letter.

| | |
|---|---|
| Course Description | This course aims at laying down the basic concepts of 'C' programming language. Problem Solving Using Computer and 'C' Programming - I is a course designed to provide a comprehensive and in-depth understanding of core programming concepts. The course covers topics such as problem solving aspects such as Algorithm, Flowcharts, Basic fundamentals of C, Control Structures, Functions, Arrays. The course will use hands-on programming exercises and real-world examples to reinforce the concepts learned. |
| Mode of Synchronous Learning | |

Christ College-Pune
क्राइस्ट महाविद्यालय-पुणे

| | |
|---|---|
| Mode of Asynchronous Learning | Google Classroom |

1) **SYLLABUS:** ***Detailed syllabus to be entered as per the approved by SPPU***

| UNIT | DETAILS | HOURS |
|---|---|---|
| 1 | **UNIT 1: Problem Solving Aspects**<br>1.1. Introduction to problem solving using computers.<br>1.2. Problem solving steps.<br>1.3 Algorithms-definition, characteristics, examples, advantages and limitations.<br>1.4 Flowcharts - definition, notations, examples, advantages and limitations, Comparison with<br>algorithms.<br>1.5 Pseudo codes - notations, examples, advantages and limitations.<br>1.6 Programming Languages as tools, programming paradigms, types of languages<br>1.7 Converting pseudo-code to programs.<br>1.8 Compilation process (compilers, interpreters), linking and loading, syntax and semantic<br>errors, testing a program<br>1.9 Good Programming Practices (naming conventions, documentation, indentation). | 05 |
| 2 | **UNIT 2: 'C' Fundamentals**<br>2.1 History of 'C' language.<br>2.2 Application areas.<br>2.2 Structure of a 'C' program.<br>2.3 'C' Program development life cycle.<br>2.4 Function as building blocks.<br>2.5 'C' tokens<br>2.6 Character set, Keywords, Identifiers<br>2.7 Variables, Constants (character, integer, float, string, escape sequences, enumeration<br>constant). | 07 |

| | | |
|---|---|---|
| | 2.8 Data Types (Built-in and user defined data types).<br>2.9 Operators, Expressions, types of operators, Operator precedence and Order of evaluation.<br>2.10 Character input and output.<br>2.11 String input and output.<br>2.12 Formatted input and output. | |
| 3 | **UNIT 3: Control Structures**<br>3.1 Decision making structures: - if, if-else, switch and conditional operator.<br>3.2 Loop control structures: - while, do while, for.<br>3.3 Use of break and continue.<br>3.4 Nested structures.<br>3.5 Unconditional branching (goto statement). | 06 |
| 4 | **UNIT 4: Functions**<br>4.1 Concept of function, Advantages of Modular design.<br>4.2 Standard library functions.<br>4.3 User defined functions: - declaration, definition, function call, parameter passing (by value),<br>return statement.<br>4.4 Recursive functions.<br>4.5 Scope of variables and Storage classes. | 06 |
| 5 | **UNIT 5: Arrays**<br>5.1 Concept of array.<br>5.2 Types of Arrays – One, Two and Multidimensional array.<br>5.3 Array Operations - declaration, initialization, accessing array elements.<br>5.4 Memory representation of two-dimensional array (row major and column major)<br>5.5 Passing arrays to function.<br>5.6 Array applications - Finding maximum and minimum, Counting occurrences, Linear search,<br>Sorting an array (Simple exchange sort, bubble sort), Merging two sorted arrays, Matrix | **06** |

| | | |
|---|---|---|
| | operations (trace of matrix, addition, transpose, multiplication, symmetric, upper/ lower triangular matrix) | |
| | **TOTAL HOURS:** | 30 |

## SECTION II - COURSE CONTENT AND REFERENCES

### 2) TEXT BOOKS

*T1. Nirali Publications*

### 3) REFERENCE BOOKS

1. How to Solve it by Computer, R.G. Dromey, Pearson Education.

2. Problem Solving and Programming Concept, Maureen Sprankle,7th Edition, Pearson Publication.

3. C: the Complete Reference, Schildt Herbert, 4th edition, McGraw Hill

4. A Structured Programming Approach Using C, Behrouz A. Forouzan, Richard F. Gilberg,Cengage Learning India

5. The 'C' programming language, Brian Kernighan, Dennis Ritchie, PHI

6. Programming in C ,A Practical Approach, Ajay Mittal , Pearson

7. Programming with C, B. Gottfried, 3rd edition, Schaum's outline Series, Tata McGraw Hill.

8. Programming in ANSI C, E. Balagurusamy, 7th Edition, McGraw Hill.

### 4) OTHER WEB RESOURCES

1. **Talk to Books- (https://books.google.com/talktobooks/)**
2. **JavaTpoint- (https://www.javatpoint.com/)**
3. **Codeforwin-** (https://codeforwin.org/)
4. **Geeksforgeeks.org-**(https://www.geeksforgeeks.org/c-programming-language/)
5. **Learn-c.org-** (http://learn-c.org/)

### 5) RELATED MOOCS OR ADDITIONAL TUTORIALS

**https://www.w3schools.com/c/index.php**

### 6) COURSE OBJECTIVES

- To introduce the foundations of computing, programming and problem- solving using computers.
- To develop the ability to analyze a problem and devise an algorithm to solve it.
- To formulate algorithms, pseudocodes and flowcharts for arithmetic and logical problems

- To understand structured programming approach.
- To develop the basic concepts and terminology of programming in general.
- To implement algorithms in the 'C' language.
- To test, debug and execute programs.

## 7) COURSE OUTCOMES(COs)

**COURSE OUTCOMES: On completion of the course, student will be able to**

**CO1. CO1.** Recall and describe the foundational concepts of computing principles, programming, and problem-solving using computers. (RBTL-1)
**CO2.** Apply analytical skills to identify and analyze problems, and devise appropriate algorithms to solve them. (RBTL-2)
**CO3.** Develop algorithms, pseudocodes, and flowcharts to solve arithmetic and logical problems. (RBTL-3)
**CO4**. Organize and apply structured programming techniques to develop code that is modular, readable, and well-organized. (L2-L3)
**CO5.** Demonstrate a comprehensive understanding of programming concepts and terminology. (RBTL-2)
**CO6.** Effectively test, debug, and execute programs, ensuring they meet the desired functionality and requirements. (RBTL-6)

## 8. CONTENT BEYOND THE SYLLABUS - TO MEET INDUSTRY / PROFESSIONAL REQUIREMENTS

| S. NO | DESCRIPTION | PROPOSED ACTIONS * |
|---|---|---|
| 1. | **Graphics Programming in 'C'** - Graphics programming refers to the process of creating, manipulating, and displaying visual elements, such as images, animations, and interactive content, using a computer program. It involves utilizing specialized libraries, APIs (Application Programming Interfaces), or graphics hardware to generate and render visual data on a screen. | With the help of these projects, students will have the opportunity to create their own mini graphics programs.<br><br>Introducing Free/paid online certification. |

## SECTION III - COURSE INSTRUCTION METHODOLOGIES

## 9. DELIVERY / INSTRUCTIONAL METHODOLOGIES

| | | | | |
|---|---|---|---|---|
| Chalk & Talk √ | PPT √ | Student seminars | Guest Lecture √ | Industry Visit |

| | | | | |
|---|---|---|---|---|
| Web resources√ | MOOC / NPTEL | Group Activity | Field Study | Hands-On √ |

## 10. ASSESSMENT METHODOLOGIES – DIRECT

| | | |
|---|---|---|
| Assignments | Closed Book Tests √ | Open book tests |
| Case study | Student Presentation √ | Mini projects/ Model Building √ |
| MOOC | Quiz √ | Digital Poster√ |

## 11. FEEDBACK ASSESSMENT (INDIRECT) METHODOLOGIES

| | |
|---|---|
| Student Feedback on Course √ | Feedback from Senior Students / Alumni |
| Feedback from Industry Experts | Any other *(specify)* |

**Activities Planned for Students who need Additional Help**: Remedial Classes

**Activities Planned for Students who shows Excellence**: Certification Course/Add on Courses

## 12) COURSE PLAN (Should be equal to total no. of hours mentioned in syllabus)

| Week | No of hours | Unit | Topic / Sub Topic | Details | Teaching Method | Reference |
|---|---|---|---|---|---|---|
| 1,2 | 5 | 1 | **UNIT 1: Problem Solving Aspects** | 1.1. Introduction to problem solving using computers.<br>1.2. Problem solving steps.<br>1.3 Algorithms-definition, characteristics, examples, advantages and limitations.<br>1.4 Flowcharts - definition, notations, examples, advantages and limitations, Comparison with algorithms.1.5 Pseudo codes - notations, examples, advantages and limitations.<br>1.6 Programming Languages as tools, programming paradigms, types of languages<br>1.7 Converting pseudo-code to programs. | PPT | **R1,T1** |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | | 1.8 Compilation process (compilers, interpreters), linking and loading, syntax and semantic errors, testing a program<br>1.9 Good Programming Practices (naming conventions, documentation, indentation). | | |
| 2,3,4 | 07 | 2 | **UNIT 2: 'C' Fundamentals** | 2.1 History of 'C' language.<br>2.2 Application areas.<br>2.2 Structure of a 'C' program.<br>2.3 'C' Program development life cycle.2.4 Function as building blocks.<br>2.5 'C' tokens 2.6 Character set, Keywords, Identifiers<br>2.7 Variables, Constants (character, integer, float, string, escape sequences, enumeration constant).2.8 Data Types (Built-in and user defined data types). 2.9 Operators, Expressions, types of operators, Operator precedence and Order of evaluation.<br>2.10 Character input and output. 2.11 String input and output. 2.12 Formatted input and output. | Chalk & Talk, PPT And Demonstration and Implementation | **R1,T1** |
| **PRACTICALS** | | | **Lab- book**<br>**Assignment No 1- Testing the Errors**<br>**Assignment No 2- Use of data types, simple operators (expressions)** | | | |
| **5,6** | **6** | **3** | **UNIT 3: Control Structure** | 3.1 Decision making structures: - if, if-else, switch and conditional operator.<br>3.2 Loop control structures: - while, do while, for.<br>3.3 Use of break and continue.<br>3.4 Nested structures.<br>3.5 Unconditional branching (goto statement). | Teaching ,Demonstration and Implementation | **R1,T1** |
| **PRACTICALS** | | | **Lab- book**<br>**Assignment No 3- Use of decision-making statements (if and if-else, nested structures)**<br>**Assignment No 4- Use of decision-making statements (switch case)**<br>**Assignment No 5- Use of simple loops.**<br>**Assignment No 6- Use of nested loops** | | | |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | | | | | |
| 7,8 | 6 | 4 | **UNIT4: Functions** | 4.1 Concept of function. Advantages of Modular design. 4.2 Standard library functions. 4.3 User defined functions: - declaration, definition, function call, parameter passing (by value), return statement. 4.4 Recursive functions. 4.5 Scope of variables and Storage classes. | Teaching , Demonstration and Implementation | **R1,T1** |
| **PRACTICALS** | | | **Lab- book**<br>**Assignment No 7- Use of standard library functions and menu driven programs.**<br>**Assignment No 8- Use of user defined functions.**<br>**Assignment No 9- Use of recursive functions.** | | | |
| **9,10** | **06** | **5** | **UNIT 5: Arrays** | 5.1 Concept of array. 5.2 Types of Arrays – One, Two and Multidimensional array. 5.3 Array Operations - declaration, initialization, accessing array elements. 5.4 Memory representation of two-dimensional array (row major and column major) 5.5 Passing arrays to function. 5.6 Array applications - Finding maximum and minimum, Counting occurrences, Linear search, Sorting an array (Simple exchange sort, bubble sort), Merging two sorted arrays, Matrix operations (trace of matrix, addition, transpose, multiplication, symmetric, upper/ lower triangular matrix) | Teaching , Demonstration and Implementation | **R1,T1** |
| **PRACTICALS** | | | **Lab- book**<br>**Assignment No 10 - Use of arrays (1-d arrays) and functions.**<br>**Assignment No 11- Use of multidimensional array (2-d arrays) and functions** | | | |

## SECTION IV - ASSESSMENT &MAPPING DETAILS

### 13) CIA ASSESSMENT DETAILS

| INTERNAL - (15 marks) | | | EXTERNAL | TOTAL |
|---|---|---|---|---|
| CIA – 1 | CIA -2 | CIA -3 | | |
| 5 | 5 | 5 | 35 | 50 |

**Mapping**:
A template to map the Learning Outcomes of the course against the components of assessment is given below:

| Course Outcomes | CIA -1 | CIA -2 | CIA -3 |
|---|---|---|---|
| CO 1 | ✓ | - | - |
| CO 2 | ✓ | - | ✓ |
| CO3 | - | ✓ | ✓ |
| CO4 | - | ✓ | ✓ |
| CO5 | | ✓ | ✓ |
| CO6 | | ✓ | ✓ |

**Assessment Outline:**

**ASSESSMENT 1: CIA1- QUIZ**

**Assessment Description:**

| | |
|---|---|
| **Assessment component** | QUIZ |
| **Portion for the Quiz** | Unit 1 |
| **Mode of conduct** | Online |
| **Technology tool used** | Google Classroom |
| **Date of exam** | |
| **Type of questions** | 20 MCQ |
| **Maximum marks** | 20 Marks (will be converted to 5) |
| **Duration** | 30 minutes |
| **General Instructions** | • Each question carries 1 mark<br>• No Re-test<br>• Test will be conducted in the Google Classroom<br>• After 30 minutes quiz access will be denied. |

**Learning outcomes:**

LO1: Students will be able describe the foundational concepts of computing principles, programming, and problem-solving using computers .

**Evaluation rubrics:**

| Score | Impression |
|---|---|
| 08-10 | Proficient |
| 05-07 | Satisfactory |
| 01-04 | Need to improve |

**ASSESSMENT 2: CIA2 -DIGITAL POSTER MAKING**

**Assessment Description:**

| | |
|---|---|
| **Assessment Component** | **DIGITAL POSTER MAKING** |
| **Test Portions** | Unit 2,3 |

College-Pune ★ महाविद्यालय-पुणे

| | |
|---|---|
| **Submission mode** | Google Classroom |
| **Maximum marks** | 5 |
| **Types of questions** | |
| **Duration** | 3 Days |
| **General Instruction** | • Poster Should be creative & unique<br>• Poster should be Relevant to topic (Content).<br>• Poster should have Visual appeal.<br>• Technical proficiency (Tools used) will be measured.<br>• Late submission will get 0 mark out of 5 |

**Learning outcomes:**

**LO1:** Development of creativity and critical thinking skills in designing posters for a specific purpose and audience.
**LO2:** Ability to effectively communicate a message through the use of visual aids.

**Evaluation Rubrics:**

| CRITERIA | EXCELLENT [3 PTS] | GOOD [1 PTS] | SATISFACTORY (1PTS) |
|---|---|---|---|
| R1-Content | Clear, concise, and relevant information presented | Adequate information presented, but may not be completely relevant or clear | Some information presented, but may be irrelevant or unclear |
| R2-Design | Visually appealing and well-organized with effective use of graphics, color, and typography | Visually pleasing with some effective use of graphics, color, and typography | A basic design with limited use of graphics, color, and typography |
| R3-Creativity | Original and inventive ideas presented in a unique manner | Some original ideas presented | Limited creative elements used |
| R4-Presentation | Clearly and effectively communicates the message | Communication is adequate, but could be clearer | Communication is unclear or confusing |

**ASSESSMENT 3: PRACTICAL BASED ASSIGNMENT**

**Assessment description:**

| | |
|---|---|
| **Assessment Component** | Pattern Drawing through Programs |
| **Assignment Topic** | Control Structures |

| | |
|---|---|
| **Nature of the assignment** | Individual completions |
| **Submission mode** | Google classroom |
| **Deadline for submission** | |
| **Maximum marks** | 15 Marks converted to 5 |
| **Assignment Description** | Students need to select specific control structure type. |
| **General Instruction** | • Late submission will be not be entertained.<br>• Choose any 3 Pattern Programs.<br>• Draw Dry run for 3 programs. |

**Learning Outcomes:**

**LO1:** Students will be able to apply control structures concepts practically.

**Evaluation Rubrics:**

| Criteria | Marks |
|---|---|
| R1-Expected Output | 5 |
| R2- Dry Run of Program | 5 |
| R3- Code Quality | 5 |

| | | |
|---|---|---|
| Asst Prof. Kirti A. Nikam | Asst Prof. Nilima Shingate | Dr (Fr) Arun Antony Chully |

|---|---|---|---|---|---|
| August '2021 Week 1 | **Theory**<br>UNIT 1: LOGIC<br>1.1 Revision: Propositional Logic, Propositional Equivalences. | 03 | Lecture | Book1 | ---------- |

| | | | | | |
|---|---|---|---|---|---|
| August' 2021 Week 2 | **Theory**<br>1.2 Rules of Inference : Argument in propositional Logic, Validity Argument(Direct and Indirect methods) Rules of Inference for Propositional Logic, Building Arguments.<br>1.3 Predicates and Quantifiers : Predicate, n-Place Predicate or ,n-ary Predicate, | 03 | Lecture | Book1 | Assignment no.1 |
| August '2021 Week 3 | **Theory**<br>Quantification and Quantifiers, Universal Quantifier, Existential Quantifier, Quantifiers with restricted domains, Logical Equivalences involving Quantifiers.<br>**Problem Practice.** | 03 | Lecture | ------ | |
| August '2021 Week 4 | **Theory**<br>**Unit 2 : Lattices and Boolean Algebra (13 Lectures)**<br>2.1 Relations, types of relations, equivalence relations, Partial ordering relations<br>2.2 Digraphs of relations, matrix representation and composition of relations. | 03 | Lecture & Activities | Book1,2 | Class test no. 1 |

| Month | Proposed Topic/Portion to be covered. As per University | No. of lect/Topic | Method Of Instruction | References Books/Web | Topics wise/Activities to be Performed Assignments/guest lecture/class test/presentations etc. |
|---|---|---|---|---|---|
| September '2021 Week 1 | **Theory**<br>2.3 Transitive closure and Warshall's Algorithm<br>2.3 Poset, Hasse diagram | 03 | Lecture (PPT) | Book 1 | |
| September '2021 Week 2 | **Theory**<br>2.4 Lattices, Complemented lattice, Bounded lattice and Distributive lattice.<br>2.5 Boolean Functions : Introduction, Boolean variable, Boolean Function of degree n, Boolean identities, Definition of Boolean Algebra. | 3 | Practical | | Assignment 2 |
| September '2021 Week 3 | **Theory**<br>2.6 Representation of Boolean Functions : Minterm, Maxterm Disjunctive normal form, Conjunctive normal Form. | 3 | Lecture | Book1 | |
| September '2021 Week 4 | **Problem Practice.** | 3 | Lecture | Book 1 | Assignment 3 |

| Month | Proposed Topic/Portion to be covered. As per University | No. of lect/Topic | Method Of Instruction | References<br>Books/Web | Topics wise/Activities to be Performed<br>Assignments/guest lecture/class test/presentations etc. |
|---|---|---|---|---|---|
| October '2021 Week 1 | **Theory**<br>**Unit 3: Counting Principles (7 Lectures)**<br>3.1 Cardinality of Set: Cardinality of a finite set.<br>3.2 Basics of Counting: The Product Rule, The Sum Rule, The Inclusion- Exclusion Principle. | 03 | Lecture (PPT) | Book 1 | Class Test 2 |
| October '2021 Week 2 | **Theory**<br>3.3 The Pigeonhole Principle: Statement, the Generalized Pigeonhole Principle, Its Applications.<br>3.4 Generalized Permutations and Combinations : Permutation and<br>3.5 Combination with Repetitions, Permutations with Indistinguishable Objects | 03 | Lecture (PPT) | Book 1 | |
| October '2021 Week 3 | **Problem Practice** | 03 | Lecture (PPT) | Book 1 | Assignment 3 |
| October '2021 Week 4 | **Theory:**<br>**Unit 4: Recurrence Relations**<br>4.1 Recurrence Relations: Introduction, Formation. | 03 | Practical<br>(Practice) | ------- | ------- |

| Month | Proposed Topic/Portion to be covered. As per University | No. of lect/Topic | Method Of Instruction | References<br><br>Books/Web | Topics wise/Activities to be Performed<br><br>Assignments/guest lecture/class test/presentations etc. |
|---|---|---|---|---|---|
| November '2021 Week 1 | **Theory**<br><br>4.2 Linear Recurrence Relations with constant coefficients. | 2 | Lecture | Book 1,2 | |
| November '2021 Week 2 | Diwali Vacations | | | | |
| November '2021 Week 3 | **Theory**<br><br>4.3 Homogeneous Solutions.<br>4.4 Particular Solutions. | 03 | Lecture | Book 1,2 | |
| November '2021 Week 4 | **Theory**<br><br>4.5 Total Solutions. | 03 | Lecture | Book 1 | |

| Month | Proposed Topic/Portion to be covered. As per University | No. of lect/Topic | Method Of Instruction | References Books/Web | Topics wise/Activities to be Performed Assignments/guest lecture/class test/presentations etc. |
|---|---|---|---|---|---|
| December '2021 Week 1 | **Problem Practice** | 03 | Lecture | Book 1 | Class Test |
| December '2021 Week 2 | **Revision** | 03 | Lecture | Book 1 | Assignment 4 |
| December '2021 Week 3 | **Practical** | 03 | Practical | -------- | --------- |
| December '2021 Week 4 | **Christmas Vacations** | ------- | ---------- | ---------- | ---------- |

| January '2022 | UNIVERSITY EXAM | | | | |

Subject Teacher: Prof. Suvarna Nade

(H.O.D): Prof. Nilima P. Shingate

**Christ College, Pune**

**Teaching Planner for the Academic Year : 2021-22**

Class: TYBSC(Mathematics) Semester: VI

Faculty Name: Prof. Nade Suvarna M.

Subject: Programming in Python –II Subject Code: MT-3610 Total hours allocated: Theory- 36

## References:

Text Books:

1. **Kenneth A. Lambert, Fundamentals of Python: From First Programs to Data Structure, Martin Osborne, 2010, Course Technology, Cengage Learning.**

Unit-1: Chapter-7: Sec-7.1.1 to 7.1.8

**2. Python: Notes for Professionals, Goalkicker.com, Free Programming books.**

Unit-2: Chapter-108, Unit-3: Chapter-19 Section:19.1 to 19.10 and Chapter-72: Section:72.1 to 72.8

**3. Jim Arlow, Interactive Computational Geometry in Python.**

Unit-4: Chapter-1: Sec.-1 to 7, Chapter-2: Sec.-1 to 2, Chapter-3: Sec.-1, 3 to 11, Chapter-4: Sec.-1 to 3, Chapter-5: Sec.-3 to 7.

**4. Operations Research: Unit-5: (a) https//pypi.org/project/PuLP/ and**

**(b) PuLP: ALinear Programming Toolkit for Python by Stuart Mitchell.**

Subject Teacher: Prof. Suvarna Nade

(H.O.D): Prof. Nilima P. Shingate

# ACADEMIC YEAR
# 2020 - 2021

**Christ College, Pune**
**Teaching Plan for the Academic Year: 2020-2021**

**S.Y. BBA (Computer Applications) SYLLABUS**

**TITLE OF PAPER: Software Engineering**

**Faculty Name: Prof.Kirti Nikam**
**Recommended Books:**

1. Software Engineering: A Practitioner's Approach- Roger S. Pressman, McGraw hill International Editions 2010(Seventh Edition)

2. System Analysis, Design and Introduction to Software Engineering (SADSE) - S. Parthsarthy, B.W. Khalkar

3. Analysis and Design of Information Systems(Second Edition) - James A. Senn, McGraw Hill

4. System Analysis and Design- Elias Awad, Galgotia Publication, Second Edition

| Month Weeks | Proposed Topic/Portion to be covered. As per University | Method Of Instruction | References Books/Web | Topics wise/Activities to be Performed Assignments/guest lecture/class test/presentations etc |
|---|---|---|---|---|
| | | | | |

| | | | | |
|---|---|---|---|---|
| **Jan '2021 Week 1** | **Ch.5- Analysis And Design Tools**<br>Introduction, Decision Tree-Examples on Decision Tree(3), Advantages and Disadvantages .<br>Decision Table- Use a Decision Table(DT), Parts of DT ,Advantages and Disadvantages ,Examples on Decision Table(2), Table Entries in Decision Tables | Google Classroom | Book1 | |
| Week 2 | Data Flow Diagram- Characteristics of DFD, Symbols used DFD , Types of DFD- 1.Logical DFD 2. Physical DFD,<br>Levels of DFD- 1. Level 0, 2. Level 1, 3. Level 2 DFD, 4. Level 3 DFD<br>Case Study: CLD and DFD(3Examples) | Google Classroom | Book2/web | Assignment |
| Week 3 | Data Dictionary- Types of DD:<br>1. Passive Dictionary<br>2. Active Dictionary<br>Elements of DD | Google Classroom | Book1,2 | |

| | | | | |
|---|---|---|---|---|
| | Advantages and Disadvantages of DD: | | | |
| Week 4 | Input and Output Design<br>Structured Design Concepts<br>Structure Chart<br>Coupling and Cohesion | | | |

**Christ College, Pune**
**Teaching Plan for the Academic Year: 2020-2021**

**S.Y. BBA (Computer Applications) SYLLABUS**

**TITLE OF PAPER: Software Engineering**

**Faculty Name: Prof.Kirti Nikam**
**Recommended Books:**

1. Software Engineering: A Practitioner's Approach- Roger S. Pressman, McGraw hill International Editions 2010(Seventh Edition)

2. System Analysis, Design and Introduction to Software Engineering (SADSE) - S. Parthsarthy, B.W. Khalkar

3. Analysis and Design of Information Systems(Second Edition) - James A. Senn, McGraw Hill

4. System Analysis and Design- Elias Awad, Galgotia Publication, Second Edition

| Month Weeks | Proposed Topic/Portion to be covered. As per University | Method Of Instruction | References Books/Web | Topics wise/Activities to be Performed Assignments/guest lecture/class test/presentations etc |
|---|---|---|---|---|
| | | | | |

| | | | | |
|---|---|---|---|---|
| **September '2020 Week 1** | 2.Introduction to Software Engineering<br><br>Definition of Software ,Definition of software Engineering ,Characteristics of Software ,software is developed or engineered; is not manufactured in the classical sense, software does not wear out, software is not susceptible to the environmental melodies, most software is custom-built, rather than being assembled from existing components. | Google Classroom | Book1 | |
| **Week 2** | Need for Software Engineering:<br>Mc Calls Quality Factors:<br>1. Factors that can be directly measured(Ex. defects per function point)<br>2.Factors that can be measured only indirectly (Ex. Usability or maintainability) | Google Classroom | Book2/web | Assignment |

| | | | | |
|---|---|---|---|---|
| | | | | |
| **Week 3** | Software Process:<br>characteristic of software process:<br>The process framework : | Google Classroom | Book1,2 | |
| **Week 4** | Software Product and Process<br>V& V Model<br>Phases of v model:<br>phases of verification phase of v model | Google Classroom | Book2 | |

**Christ College, Pune**
**Teaching Plan for the Academic Year: 2020-2021**

**S.Y. BBA (Computer Applications) SYLLABUS**

**TITLE OF PAPER: Software Engineering**

**Faculty Name: Prof.Kirti Nikam**
**Recommended Books:**

1. Software Engineering: A Practitioner's Approach- Roger S. Pressman, McGraw hill International Editions 2010(Seventh Edition)

2. System Analysis, Design and Introduction to Software Engineering (SADSE) - S. Parthsarthy, B.W. Khalkar

3. Analysis and Design of Information Systems(Second Edition) - James A. Senn, McGraw Hill

4. System Analysis and Design- Elias Awad, Galgotia Publication, Second Edition

| Month Weeks | Proposed Topic/Portion to be covered. As per University | Method Of Instruction | References Books/Web | Topics wise/Activities to be Performed Assignments/guest lecture/class test/presentations etc |
|---|---|---|---|---|
| | | | | |

| | | | | |
|---|---|---|---|---|
| **Oct '2020 Week 1** | **3. Software Development Life Cycle-** SDLC, Activities of SDLC,SDLC Life Phases-Primary Investigation and Feasibility study, Analysis or Requirement Gathering, Design, Implementation or Coding, Testing, Deployment, Maintenance System Evaluation-Development ,Operational, User Management Assessment. | Google Classroom | Book1 | |
| **Week 2** | Advantages of SDLC<br>A Generic Process Model , Activities of Generic Process Model, Advantages of Process Model, Process Flow- Linear Process Flow, Iterative Process Flow, Evolutionary Process Flow, Parallel Process Flow<br>Types of SDLC Model: 1. Descriptive Model<br>2. Prescriptive Model<br>1- 1.Waterfall model- Advantages,Disadvantages | Google Classroom | Book2/web | Assignment |
| **Week** | Incremental Process Model- Advantages,Disadvantages | | Book1,2 | |

| | | | | |
|---|---|---|---|---|
| 3 | 2.1 prototyping model- Phases of prototyping model, Types of prototyping model- 1.Rapid throwaway prototyping , 2.Evolutionary prototyping, 3. Incremental prototyping, 4. Extreme prototyping Advantages ,Disadvantages<br>2 Spiral model: Advantages, Disadvantages | Google Classroom | | |
| Week 4 | **Ch.4 Requirement Engineering**<br>Introduction, Types of requirement- Functional Requirements, Non Functional Requirements, Domain requirements, User Requirements, System Requirements | Google Classroom | Book2 | |

**Christ College, Pune**
**Teaching Plan for the Academic Year: 2020-2021**

**F.Y. BSC (Computer Science) SYLLABUS**

**TITLE OF PAPER: Problem Solving Using Computer and 'C' Programming - I**
**Code No. : CS101**

**Faculty Name: Prof.Kirti Nikam**
**Recommended Books:**

1. How to Solve it by Computer, R.G. Dromey, Pearson Education.
2. Problem Solving and Programming Concept, Maureen Sprankle,7th Edition, Pearson
3. C: the Complete Reference, Schildt Herbert, 4th edition, McGraw Hill
4. A Structured Programming Approach Using C, Behrouz A. Forouzan, Richard F. Gilberg, Cengage Learning India
5. The 'C' programming language, Brian Kernighan, Dennis Ritchie, PHI
6. Programming in C ,A Practical Approach, Ajay Mittal , Pearson
7. Programming with C, B. Gottfried, 3rd edition, Schaum's outline Series, Tata McGraw Hill.
8. Programming in ANSI C, E. Balagurusamy, 7th Edition, McGraw Hill.

| Month Weeks | Proposed Topic/Portion to be covered. As per University | Method Of Instruction | References Books/Web | Topics wise/Activities to be Performed Assignments/guest lecture/class test/presentations etc |
|---|---|---|---|---|

| | | | | |
|---|---|---|---|---|
| **Dec '2020 Week 1** | **Ch.2. 'C' Fundamentals:**<br>Introduction, History of 'C' Language, Features of C Language, Applications areas of C, Structure of C Program-1. Documentation, Link, Definition, Global section, main() section ,Subprogram section<br>**C programming Development Life Cycle**<br>Function Building Block-Programs, C-Tokens, Character Set, Keywords Identifiers<br>**Variables, Constants (character, integer, float, string, escape sequences, enumeration constant), Constants-**<br>**1.Numeric Constant-**<br>ii)Integer Constant<br>ii) Floating Point Constant<br>**2.Charcter Constant-**<br>1.Escape sequence<br>**3. String Constant**-Difference between Character and String Constant<br>**Data Types-**<br>(Built-in and user defined data types- int, float ,char, double, void).<br>Qualifiers in C<br>**User defined Data Types-** C Enumeration, Use of typedef, Variable Declaration, Variable , Variable Initialization, constant declaration., | Google Classroom | Book1 | |

| | | | | |
|---|---|---|---|---|
| | Operators, Expressions, types of operators, Operator precedence and Order of evaluation Character input and output. | | | |
| **Week 2** | String input and output.<br>Formatted input and output.<br>**Ch.3- Control Structures**<br>Decision making Structure-if, if-else, Nested-else-if ,if-else-if Ladder , Statements(Program On Each type-4 Programs),Conditional Operator(?), Switch Statement-Example & Program, Difference between if-else & switch and else-if- Ladder Statement, **Loop Control Structure**-1.while statement-Program 2. do-while Statement-Program 3. for Statement, Use of break and continue.(2 program), | Google Classroom | Book2/web | |
| **Week 3** | Nested structures-(Program),Unconditional branching (goto statement). -Programs<br>**Ch.5 Arrays** –Concept of array, Types of Arrays-<br>1. One dimensional Array<br>2. Two Dimensional Array | Google Classroom | Book1,2 | |

| | | | | |
|---|---|---|---|---|
| **Week 4** | Christmas Holiday | | | |

**Christ College, Pune**
**Teaching Plan for the Academic Year: 2020-2021**

**F.Y. BSC (Computer Science) SYLLABUS**

**TITLE OF PAPER: Problem Solving Using Computer and 'C' Programming - I**
**Code No. : CS101**

**Faculty Name: Prof.Kirti Nikam**
**Recommended Books:**

1. How to Solve it by Computer, R.G. Dromey, Pearson Education.
2. Problem Solving and Programming Concept, Maureen Sprankle,7th Edition, Pearson
3. C: the Complete Reference, Schildt Herbert, 4th edition, McGraw Hill
4. A Structured Programming Approach Using C, Behrouz A. Forouzan, Richard F. Gilberg, Cengage Learning India
5. The 'C' programming language, Brian Kernighan, Dennis Ritchie, PHI
6. Programming in C ,A Practical Approach, Ajay Mittal , Pearson
7. Programming with C, B. Gottfried, 3rd edition, Schaum's outline Series, Tata McGraw Hill.
8. Programming in ANSI C, E. Balagurusamy, 7th Edition, McGraw Hill.

| Month Weeks | Proposed Topic/Portion to be covered. As per University | Method Of Instruction | References Books/Web | Topics wise/Activities to be Performed Assignments/guest lecture/class test/presentations etc |
|---|---|---|---|---|
| | | | | |

| | | | | |
|---|---|---|---|---|
| **Nov '2020 Week 1** | Introduction, Introduction to Problem solving Using Computers, Problem solving steps, Algorithms, Definition, Characteristics of an Algorithm, Examples, Advantages and Disadvantages of Algorithm, Flowcharts, Definition, Symbols /Notations in flowcharts, General Rules for Drawing Flowcharts, Examples, Advantages and Disadvantages of Flowcharts, Difference between Algorithm and Flowcharts | Google Classroom | Book1 | |
| **Week 2** | **Examples:** 1. Algorithm and Flowchart to find area and perimeter of circle. 2. Algorithm to find simple interest. 3. Algorithm and Flowchart to check given number is even or odd. 4. Algorithm and Flowchart to check year is leap year or not.5. Algorithm and Flowchart to find largest of three numbers<br>**Pseudo code** –Notations<br>1. Sequence Construct/Structure-Examples.<br>**2. Selection (Decision):**i) If-Then Construct<br>ii) If –Then-else- Construct-Examples.<br>iii) Case Construct-Example.<br>**3.Repetition (Looping )Construct:**<br>i) Do- While looping construct-Example.<br>ii) Repeat Until-Examples(3)<br>Advantages and Limitations of Pseudo Code . | Google Classroom | Book2/web | |

| | | | | |
|---|---|---|---|---|
| **Week 3** | Programming Language as a Tool<br>**Programming Paradigm**<br>**1. Imperative Programming Paradigm**<br>a) Procedural Programming Paradigm<br>b) Object Oriented Programming<br>c)Parallel Processing approach.<br>**2. Declarative Programming Paradigm :**<br>a) Logic Programming Paradigm<br>b)Functional Programming Paradigm<br>c) Database /Data Driven Programming Approach<br>**Types of Programming Languages:**<br>1.)**Low Level Language-**<br>**i)**Machine Language-Advantages &Disadvantages.<br>ii)Assembly Language- Advantages Disadvantages<br>**2.High Level Language-**<br>i) Procedural –Oriented Language<br>ii) Problem Oriented Language.<br>iii) Natural Language<br>Advantages of HLL , Disadvantages of HLL | Google Classroom | Book1,2 | |
| **Week 4** | Difference between Machine, Assembly and High Level Languages.<br>Converting Psuedocode to Program<br>**Compilation Process-**<br>1. Editor<br>2. Preprocessor.-Removing Comments, File inclusion, Macro Expansion | Google Classroom | Book2 | Assignment |

| | | | | |
|---|---|---|---|---|
| | 3. Compiler- Need, Advantages, Disadvantages.<br>4. Interpreter-Adavntages, Disadavntages.<br>Difference Between Compiler and Interpreter.<br>5. Loader/Linker<br>6.Syntax and Semantic errors<br>7. Testing the program<br>Good Programming Practices- 1. Naming Conventions- File Naming Conventions 2. Documentation, Indentations, Good Programming Practices | | | |

**Christ College, Pune**

| **Week 2** | **Ch 7. Software Maintenance and Software Re-Engineering-** Introduction, Software Maintenance Definition and Types, Need for Software Maintenance, Types of Maintenance- 1. Corrective Maintenance- Types of corrective maintenance , 2. Adaptive Maintenance, 3. Perfective Maintenance, 4. Preventive Maintenance<br>Software Reengineering- Activities of Reengineering, Advantages of Re-engineering, Process of Reengineering<br>Reverse Engineering- Advantages of Reverse Engineering, Reverse Engineering Process | Google Classroom | Book2/web | Assignment |
| **Week 3** | Restructuring and Forward Engineering, Restructuring- Process of Restructuring, Code Restructuring, Data Restructuring:<br>Forward Engineering- Forward Engineering Process , Component Reusability, Levels of Re-use Process, Reuse Process | Google Classroom | Book1,2 | |
| **Week 4** | Christmas Holidays | | | |

**Christ College, Pune**
**Teaching Plan for the Academic Year: 2020-2021**

**F.Y. BSC (Computer Science) SYLLABUS**

**TITLE OF PAPER: Problem Solving Using Computer and 'C' Programming - I**
**Code No. : CS101**

**Faculty Name: Prof.Kirti Nikam**
**Recommended Books:**

1. How to Solve it by Computer, R.G. Dromey, Pearson Education.
2. Problem Solving and Programming Concept, Maureen Sprankle,7th Edition, Pearson
3. C: the Complete Reference, Schildt Herbert, 4th edition, McGraw Hill
4. A Structured Programming Approach Using C, Behrouz A. Forouzan, Richard F. Gilberg, Cengage Learning India
5. The 'C' programming language, Brian Kernighan, Dennis Ritchie, PHI
6. Programming in C ,A Practical Approach, Ajay Mittal , Pearson
7. Programming with C, B. Gottfried, 3rd edition, Schaum's outline Series, Tata McGraw Hill.
8. Programming in ANSI C, E. Balagurusamy, 7th Edition, McGraw Hill.

| Month Weeks | Proposed Topic/Portion to be covered. As per University | Method Of Instruction | References Books/Web | Topics wise/Activities to be Performed Assignments/guest lecture/class test/presentations etc |
|---|---|---|---|---|

| | | | | |
|---|---|---|---|---|
| **Jan '2021 Week 1** | **Ch.** 5-<br>Array Operations, Declaration of One Dimensional Array, Initializing one dimensional array-Compile Time, Runtime, Partial Initialization, Accessing One Dimensional Array Elements-Assigning values to Array Elements(Program on Each Concept), (Program) | Google Classroom | Book1 | |
| **Week 2** | Two Dimensional Array- Initializing Two dimensional array-Compile Time, Runtime, Accessing Two Dimensional Array Elements(Program) | Google Classroom | Book2/web | |
| **Week 3** | **Multidimensional Array** – Declaration, Initializing Multidimensional array Accessing Multidimensional Array Elements(Program)., Memory Representation of Two Dimensional –Row and Column Array, Passing Arrays to Function, Passing Entire array to function Array Applications, Limitations of Array | Google Classroom | Book1,2 | Quiz |
| **Week 4** | **Ch.4 Function**<br>Introduction, Concept of Function, Advantages of Modular Design, Standard Library Functions-Program, User defined Functions | | | |

# ACADEMIC YEAR
# 2019 - 2020

Christ College, Pune

Teaching Planner for the Academic Year : 2019-20

Month of June

Class : TYBSC(Comp Sci.) Semester : III

Faculty Name: Prof. KHANDVE PRITI SATISH

Subject : System programming ( Subject Code: CS-331 ) Total hours allocated :Theory- 48 ,Practical-54

References : - 1) Systems Programming and Operating Systems by D.M.Dhamdhere 2) System Software - An introduction to Systems Programming 3) Linkers and Loaders 4) Operating System Concepts - Siberchatz, Galvin, Gagne.

| Month | Proposed Topic/Portion to be covered. As per University | No. of lect/Topic | Method Of Instruction | References Books/Web | Topics wise/Activities to be Performed Assignments/guest lecture/class test/presentations etc |
|---|---|---|---|---|---|
| June '2017 | **THEORY**<br>**I. Introduction [4]**<br>1.1. Types of program – System program and Application program.<br>1.2. Difference between system programming and application programming.<br>1.3. Elements of Programming environment - Editor, Preprocessor, Assembler, Compiler, Interpreter, Linker and Loader, Debugger, Device drivers, Operating System.<br>1.4. Simulation of simple computer smac0 (hypothetical computer) -Memory, Registers, Condition Codes, Instruction format, Instruction Set, smac0 programs.<br>**PRACTICAL**<br>No practicals | 4 | Lecture<br>On PPT<br>Explanation | 1)Text Book by Vision Publication<br>2) Systems Programming and Operating Systems by D.M.Dhamdhere | |

Subject Teacher : Asst. Prof. Priti S. Khandve

(H.O.D): Asst. Prof. Nilima P. Shingate

# CHRIST COLLEGE-PUNE

## Department of Commerce

## Course Plan

# ACADEMIC YEAR
# 2022 - 2023

# Course Plan

| | |
|---|---|
| **Program** | **Batchelor of Commerce** |
| **Course Code & Name** | **MCOM Management Accounting Semester I** |
| **Trimester** | I |
| **Hours & Credits** | 48 Hours and 3 Credits |
| **Course Facilitator** | Mrs Simi Sharma |
| **Contact details** | siminairsharma@gmail.com |

| Course Name: Management Accounting | | Course Code: 101 | |
|---|---|---|---|
| Total number of hours: | 48 | Credits: | 3 |
| Course Description | | | |
| Course Objectives | This course attempts to enable students:<br>1. To enhance the abilities of learners to develop the concept of management accounting and its significance in the business.<br>2. To enhance the abilities of learners to analyze the financial statements.<br>3. To enable the learners to understand, develop and apply the techniques of management accounting in the financial decision making in the business corporates.<br>4. To make the students develop competence with their usage in managerial decision making and control. | | |
| Course Outcome | After completion of the course the students will be able to:-<br>1. Students will be able to define management accounting and explain its role in the decision-making process.<br>2. Students will be able to identify and analyze different types of costs.<br>3. Students will be able to prepare financial statements for internal use.<br>4. Students will be able to use financial management techniques to make investment decisions.<br>5. Students will be able to use business statistics to analyze data and make informed decisions | | |

# Course Mapping

| Unit | Topics and Time allotted | No. of hours | Activity | Methodology | Learning outcome | Resource/ Reference details |
|---|---|---|---|---|---|---|
| | | | | | | |
| **Unit 1** | **Accounting for Emerging Sectors** | | | | | |
| | Limitations of conventional Financial Accounting<br>Emergence of Management Accounting and Cost Accounting<br>Advantages of<br>➢ | 3 | Discussion | Use of e-contents, online lectures and PowerPoint Presentations | To understand the concept of Financial Accounting and its limitations, emergence of Management Accounting and Cost Accounting, its advantages and distinction between Management Accounting and Cost Accounting. | |
| | Management Accounting and Cost Accounting<br>Distinction between Management Accounting and Cost Accounting | 5 | Discussion | Lecture & discussion/flip classroom | Critical Thinking: Develop self-critical abilities and the ability to view problems. | |

| | | | | | | |
|---|---|---|---|---|---|---|
| | ➢ Management Accounting as a decision making tool | | | | | |
| | ➢ Evaluation | 2 | MCQ | | Concept clarity | |
| **Unit 2** | **Application of Management Accounting Techniques** 12 Hrs | | | | | |
| | Marginal Costing and Cost-Volume Profit (CVP) | 2 | Accounting Crossword activity | Use of e-contents, online lectures and MCQ based Quiz, PowerPoint Presentations | To understand the concept of Marginal Costing, its applications, different techniques of managerial cost accounting and Fixed and Variable Cost Analysis in decision making process. | Book: -By Dr. S. N. Maheshwari & S.K. Maheshwari , Mukharji & Hanif, |
| | Analysis, Key Factors Decision Making through Managerial Cost Accounting (Make or Buy Decision) Application of Fixed and Variable Cost Analysis technique in decision making process. | 4 | Think-pair-share activity | Lecture – centered approach /Student Centered approach / | • To develop Conceptual understating about Cost accounting. | Book: - By Dr. S. N. Maheshwari & S.K. Maheshwari, By Mukharji & Hanif, Study material |

| | | | | | | |
|---|---|---|---|---|---|---|
| | Purchasing and Leasing Techniques and Managerial Cost Accounting<br>Standardization of Accounting System<br>➢ Fixed and Variable Cost Analysis<br>➢ | 4 | Think-pair-share activity | Lecture – centred approach /Student Centered approach / Think-pair-share activity | • To develop analytical skills (by understanding the Techniques of Managerial Cost Accounting | Book: -<br>By Dr. S. N. Maheshwari & S.K. Maheshwari, By Mukharji & Hanif, Study material |
| | Assessment | 1 | Practical Sum | Written Test | To identify gaps in student's learning | Previous Year question Paper |
| | Self-Evaluation | 1 | Moon Cake | - | It helps build comprehension. It encourages cooperative learning among students.. | |
| 3 | **Budgets as a tool for Decision Making** | | | | | |
| | Budget Manual<br>Budget Committee and | 4 | - | Lecture and Discussion /flipped classroom | To understand the concept of budget and budgetary control, types of budgets and preparation of functional budgets in an organization. | Book - By S.P. Jain & K.L. Narang |
| | Budgetary Control<br>Preparation of Budget<br>Fixed and Flexible Budget<br>➢ Cash budget | 4 | Illustrations | Student centred Approach | To understand revised format of Budget | Nirali Publications |

College-Pune ★ ज्ञानेश्वर महाविद्यालय-पुणे

| | | | | | | |
|---|---|---|---|---|---|---|
| | Master Budget | 4 | Illustrations/ • Periodic free-recall | Lecture and Student centred Approach - | Students will be able to think critically when asked to about Master budget | Book -By Dr. S. N. Maheshwari & S.K. Maheshwari, Nirali Publications |
| | Purchase and Sales Budgets<br>➢ | 4 | Illustrations | Student centred Approach | To develop critical thinking skill | Study material |
| | Assessment | 2 | Written Test | - | To identify gaps in student's learning | - |
| **4** | **Working Capital Management** | | | | | |
| | Concept and definition of working capital, Determination of Working capital, Assessment of Working | 4 | Lectures of experts available on YouTube and other digital platforms | Use of e-contents, online lectures and PowerPoint Presentations | To understand the concept of Working Capital Management, determination of working capital, components of working capital and accounts receivable and inventory management. | Link - https://www.investopedia.com/articles/stocks/09/indian-stock-market.asp |
| | Capital needs - Study of components of working capital such as cash management | 4 | Illustrations | Lecture & student based approach | • To understand the methods of working capital | Book- By R.L.Gupta & M. Radhaswamy (Sultan Chand & Sons) |
| | Accounts receivable management and inventory management. | 2 | Illustrations | Lecture & student based approach | To understand the practical application of different methods | Nirali publication |
| | Evaluation | 1 | Report writing on valuation of shares of a company from | | Students will be able to gain knowledge of share and methods to calculate | Link - |

**CIA II – Experiential Learning- Business Plan**

**This is a Group assessment.**

A company that produces and sells smartphones is considering launching a new product line of smartwatches. The company's management team has requested a business plan that outlines the expected costs, revenues, and profitability of the new product line.

Task: In groups of 6-7 students, create a business plan that includes the following:

1. Market analysis: Analyse the market for smartwatches, including market size, growth rate, and market share of competitors. Use economic theory to identify the market structure and competition level in the smartwatch market.
2. Production and cost analysis: Analyse the production process and cost structure of the smartwatch product line. Use cost functions to estimate the marginal cost and average cost of producing each unit of the smartwatch. Identify the fixed and variable costs associated with the production process.
3. Revenue analysis: Estimate the demand for the smartwatch product line and use pricing strategies to determine the optimal price for the product. Use revenue functions to estimate the total revenue and profit of the product line.
4. Macroeconomic analysis: Analyse the impact of macroeconomic factors such as inflation, interest rates, and exchange rates on the business operations of the company. Evaluate the impact of government policies such as taxation and regulation on the company's profitability.
5. Sensitivity analysis: Perform sensitivity analysis to evaluate the impact of different scenarios on the profitability of the smartwatch product line.

Identify the key assumptions and parameters that are most sensitive to changes in the business environment.

6. Final report needs to be submitted after the analysis. Final report contains the learning experience of each student, summary of the tasks completed, need to analyze whether all the learning objectives are fulfilled (market analysis, production and cost analysis, revenue analysis, macro-economic analysis, sensitivity analysis) in the report.

**Course Outcome**

- To communicate their economic analysis effectively, both in writing and verbally.
- To identify and analyze complex business problems, evaluate different options, and make informed decisions.

Mode of submission: Google Classroom

## DEPARTMENT OF ARTS

### COURSE PLAN 2022-2023

### SECTION I

| | | | |
|---|---|---|---|
| **Semester** | **1** | **Class** | **FYBA** |
| **Course Code** | 11161A | **Course Title** | Political Science G1: Introduction to Indian Constitution |
| **Hours** | **45-48** | **Hours per week** | **04** |
| **Faculty Name** | Dr. Assunta Mendonca-Sandhir | **Contact Details** | Dr Assunta Mendonca-Sandhir<br>Coordinator of Arts<br>Christ College, Pune<br>Mobile Number: 9823226776<br>assunta.mendonca@christcollegepune.org |
| **Class policies and guidelines** | • Students are expected to join the class 5 minutes before the session starts.<br>• Attendance will be taken within the **first five** minutes of every lecture.<br>• After the submission of the attendance, correction in attendance is not permitted. | | |

| | |
|---|---|
| | • All deadlines & schedule pertaining to assignments and pre-reading must be adhered to.<br>• Participation in discussions during class is encouraged.<br>• Permission for re-tests will be at the discretion of the course facilitator.<br>• Refrain from taking rest-room break during the class. |
| **Course Description** | This course will help the students to expand their understanding about the Constitution of India. The Constitution, being the supreme law of the land, must be known to every citizen of India. It begins with the Preamble, which indicates the source and objectives of it. We, the people of India, are the source of the Constitution and have resolved to constitute India into a sovereign, socialist, secular, democratic and republic. The Course highlights the essence of Fundamental Rights and Fundamental Duties. Directive Principles of State Policy are nothing but rights, though not enforceable by any court. These Directive Principles are basically 'Fundamental Principles' in the governance of the country. They also understand that Powers and freedoms come with responsibility, State's responsibility to implement Directive Principles and citizens must perform their duties towards others, society and nation. The course also updates regarding the various Constitutional Amendments. |
| **Course Objectives** | The contents of this course are designed with the following objectives:<br>**1.** To acquaint the students with the important features of the Constitution of India and with the basic framework of Indian Government.<br>**2.** To familiarize students with the working of the Constitution of India. |
| **Learning Outcomes for the Course** | **1.** Understanding the essence/philosophy of Constitution of India.<br>**2.** Understanding the working of the Constitution of India |

| **Program Learning Objectives** | **PLO2.1:** Identify the context of the business problem<br>**PLO2.2:** Examine management theories in the cross functional setting | | | | | |
| Total Marks | 20 Marks | | | | | |
| Criteria / Weightage/PLO | **CO-PO** | **Excellent (5)** | **Very Good (4)** | **Good (3)** | **Average(2)** | **Needs Improvement(1)** |
| Identify the concepts of HRM in a given context/PLO2.1 | **CO1 - PO1(2)** | Five HRM concepts identified in the given context | Four HRM concepts identified in the given context | Three HRM concepts identified in the given context | Two HRM concepts identified in the given context | One HRM concept identified in the given context |

| | | | | | | |
|---|---|---|---|---|---|---|
| Apply talent acquisition processes/PLO2.1 | **CO2 - PO1(2)** | Talent acquisition processes are defined and applied to address more than two identified problems. | Talent acquisition processes are defined and applied to address two identified problems | Talent acquisition processes are defined and applied to address one identified problem | Talent acquisition processes are defined, but not applied to the context | No talent acquisition processes applied |
| List managerial action to be taken/PLO2.2 | **CO3 - PO1(2)** | More than one managerial action is explained with clarity and addresses major and minor problems in the case | More than one managerial action is explained with clarity and addresses major problems in the case | One managerial action is explained with clarity and addresses a major problem in the case | Managerial action listed does not address the issues in the case | No managerial actions listed |
| Examine business impact of HRM practices/PLO2.2 | **CO3 - PO1(2)** | Impact of HRM practices is well examined, linkage with business context is explained with relevant details, cross functional lens is also applied | Impact of HRM practices is well examined, linkage with business context is explained with relevant details, cross functional lens is not applied | Impact of HRM practices is moderately examined, linkage with business context is explained with incomplete details | Impact of HRM practices is vaguely examined, lacks linkage with business context | Impact of HRM practices is not examined |

*Weightage (Levels) can vary depending on assignments

**CIA 3 – Research Assignment**

**This Assignment is being used for Assessment of Programme Learning Objectives as well.**

**This is an individual assessment, however the work will be done in groups.**

- Students are required to form groups of 5 - 6 members. Students are encouraged to form diverse groups (gender/educational background/work experience).

- Students have to identify ONE HR Practice related to Compensation, Performance Management, Training and Development or Industrial Relations.
    - Each student will review TWO research articles related to the chosen topic. The articles chosen have to be unique – but within the theme of the group.
    - The group will also identify a business initiative/problem related to the chosen theme – This will be from the business news.
    - As a group, they will record a video of their discussions on the business problem and the research perspectives that each one has read about. Students have to introduce themselves before presenting.
    - This video will be between 8 minutes to 10 minutes.
    - At the end of the discussion, individual videos need to be recorded. Here, each student will suggest action points based on the research they have read as well as that presented by the other group members.
    - The key aspect here is how well the student is able to combine different perspectives as presented by others in the group as well as their own understanding.
    - This video will be for a maximum of 2 minutes per student and will be prepared and submitted individually.
- Submission through Google Classroom
- Submission Deadline: 24 January 2022

**CIA III Rubrics**

| **Program Learning Goals** | **PLG3** |
|---|---|

| **Program Learning Objectives** | **PLO3.1:** Outline presentation with clear goals and objectives<br>**PLO3.2:** Utilize appropriate communication mode for effective team collaboration.<br>**PLO3.3:** Examine the flow of communication<br>**PLO3.4:** Defend using appropriate language<br>**PLO3.5:** Develop ideas and concepts to address issues. | | | |
|---|---|---|---|---|
| **Total Marks** | **21 Marks (Converted to 20 Marks)** | | | |
| Criteria / Weightage/PLO | **CO-PO** | **Excellent (3)** | **Satisfactory (2)** | **Needs Improvement (1)** |
| Outline presentation with clear goals and objectives/PLO3.1 | CO4 – PO5(2) | Presentation exhibits complete clarity of goals and objectives | Presentation exhibits limited clarity on goals and objectives | Presentation has no clarity on goals and objectives |
| Utilize appropriate communication mode for effective team collaboration/PLO3.2 | CO4 – PO5(2) | Communication modes utilized by the team members is relevant and leads to close coordination among team members | Communication modes utilized by the team members is partially relevant and leads to moderate level of coordination among the team members | Communication modes utilized by the team members are inappropriate and leads to lack of coordination among the team members. |
| Examine flow of communication/2/PLO3.3 | CO4 – PO5(2) | Communication is clear in its design, logic, and organization. | Communication is partially appropriate in its design, logic, and organization. | Communication has limited clarity in its design, logic, and organization. |
| Defend using appropriate language/PLO3.4 | CO5 – PO5(2) | Influences audience/readers with convincing language in a consistent and effective manner. | Moderately influences audience/readers with language | Fails to convince audience/readers due to inconsistent language |
| Develop ideas and concepts to address issues/2/PLO3.5 | CO5 – PO5(2) | Communication effectively synthesizes divergent and contradictory perspectives | Communication moderately synthesizes divergent and contradictory perspectives. | Communication lacks synthesis of divergent and contradictory perspectives. |

# ACADEMIC YEAR

# 2021 - 2022

# CHRIST COLLEGE-PUNE

## COURSE PLAN

### SECTION I

| | |
|---|---|
| Class | TYBA |
| Semester | VI (SEC 1-D) |
| Program | Bachelor of Arts |
| Course Name | Skill Enhancement Course (SEC 1-C & SEC 1-D) (Old G-3) |
| Title of Paper | Enhancing Employability Skills |
| Course Teaching Hours & Credits (1 Credit = 15 hours) | 45 Hours - 3 Credits |
| Faculty name | Dr Priya Wahab |
| Contact information | priya.wahab@christcollegepune.org |

ollege-Pune ★ क्राईस्ट महाविद्यालय-पुणे

## SECTION II

| Class: TY BA | Prescribed book – *Aspirations: English for Careers* (Ed. Board of Editors, Orient Black Swan) |
|---|---|
| Total number of clock hours: 45 Hrs. (Teaching) + 3 Hrs. (Internal assessment) = 48 | Credits: 3 |

**Rationale:**

TYBA students are on the threshold of their career. Hence, it is necessary to orient and prepare them for different careers they can join after graduation. Considering the various career opportunities available to Arts graduates, the syllabus aims at awareness raising, competence building and skill enhancement of the learners. All the units in the book, besides offering exposure to the use of English for different careers, are radically designed to keep pace with the age of technology and to empower the learners for the present as well as the upcoming career avenues.

| Course Objectives | *This course attempts to enable students:*<br>1. To familiarize students with the use of English language in their career.<br>2. To enable students to be aware of career opportunities.<br>3. To make students understand the use of English in different careers.<br>4. To instil and enhance the use of English language.<br>5. To train the students in practical communication skills required in work environment.<br>6. To impart knowledge of verbal as well as nonverbal communication effectively for their career. |
|---|---|

| | |
|---|---|
| Course Learning Outcomes | *After studying the paper successfully, the learners will be able to:*<br>1. Get the awareness of career opportunities available to them.<br>2. Identify the career opportunities suitable to them.<br>3. Understand the use of English in different careers.<br>4. Develop competence in using English for the career of their choice.<br>5. Enhance skills required for their placement.<br>6. Use English effectively in the career of their choice.<br>7. Exercise verbal as well as nonverbal communication effectively for their career. |

## COURSE PLAN

### SECTION I

| | |
|---|---|
| Class | SYBA |
| Semester | III |
| Program | Bachelor of Arts |
| Course Name | Skill Enhancement Course-SEC-1A |
| Subject Code &Title of Paper | 23333 Advanced Study of English Language |
| Course Teaching Hours & Credits (1 Credit = 15 hours) | 45 Hours and 3 Credits |
| Duration: 15 weeks | 12 weeks teaching + 3 weeks for continuous assessment including preparation time for students (theory course) |
| Faculty name | Dr Priya Wahab |
| Contact information | priya.wahab@christcollegepune.org |

## SECTION II

| Course Name: SY BA Skill Enhancement Course-SEC-1A | **Prescribed book** - *Linguistics: An Introduction*<br>Ed. Board of Editors, Orient Black Swan |
|---|---|
| Total number of clock hours:<br>45 (Teaching) + 3 (Internal assessment) = 48 | Credits: 3 |
| Course Description | The present course is a skill enhancement course. Effective use of language involves multiple skills, namely listening, speaking, reading and writing. In order to acquire these skills and become efficient users of language our students need to be conversant with different aspects of language. Thus, the students need to know **phonological aspects** of language like correct ***pronunciation, stress, tone groups, intonation patterns*** etc. The **basics of morphology** acquaint students with the ***structure of words and word formation processes***. Morphology combined with lexical semantics contributes to the enrichment of vocabulary and helps the students to use right words in a right place in their communication. English in India is a second language and in a second language learning situation, developing insight into the process of sentence formation is very important. Syntax part of the course takes care of this crucial aspect in the development of language skills. Mere correctness of language is not enough. We have to use language appropriately in a given context. Grounding in pragmatics |

College-Pune ★ आईसर महाविद्यालय-पुणे

| | |
|---|---|
| | contributes to the language skills of students by helping them produce contextually appropriate utterances. The **sociolinguistics** part of the course **focuses on language variation** because language is not a monolithic phenomenon. Awareness of diversity in language use can make the learner a better user of language. The course thus enhances the linguistic and communicative skills of the students. |
| Course Objectives | *This course attempts to enable students to:*<br>1. Familiarize with the various components of language.<br>2. Develop overall linguistic competence of the students.<br>3. Introduce students to some advanced areas of language study.<br>4. Prepare students to go for detailed study and understanding of language.<br>5. To enhance English communicative skills of students by developing insight into the working of language |
| Course Learning Outcomes | *After learning the course, the students will be able to:*<br>1. Identify the various components of language.<br>2. Display their linguistic skills in their future prospects and research.<br>3. Detect pronunciation errors and improve their pronunciation skills<br>4. Analyse the phonological, morphological, semantic and syntactical areas of language study.<br>5. Understand the working of English language as a communicative medium and thereby enhance their communicative skills |

## Assessment Description

CIA 1 – A

**Assignment-Unit 1 Phonology**

**Topics:**

1. Speech Chain model
2. Physiology of speech organs/ Vocal tract
3. Phonetic symbol chart
4. Often mispronounced words
5. Silent letters in English
6. Words with same alphabets- different pronunciation

**Marks: 10**

**Description:**

- This is a group activity. Students are required to form groups of 2 members.
- The posters should be handmade and creative.
- Make a poster on any one of the topics in a clear and logical way.

College-Pune ★ खोईट महाविद्यालय-पुणे

- Information (text) about the topic should be written on the poster along with different forms of graphs/pictures/ diagram/table etc.
- Students are required to confirm the topic with the subject teacher before starting the assignment.
- Can use drawing pencils, paints, pens, papers, pictures, prints, best out of waste material etc. for poster making.
- Poster size should be minimum-Full Chart Paper Size (70 x 56 cm) (any colour).
- Each participant is required to explain (turn by turn as a team) the poster using appropriate pronunciation skills.
- Date for Poster presentation will be informed in the class.

*Display of the poster will be done in exhibition

Submission: In Class & upload in PDF format on Google Classroom

Submission Date: 27th Sept. 2022

## COURSE PLAN

### SECTION I

| | |
|---|---|
| Class | FYBA |
| Semester | I |
| Program | Bachelor of Arts |
| Course Name | General Paper - 1 |
| Subject Code &Title of Paper | 11331 Optional English |
| Course Teaching Hours & Credits (1 Credit = 15 hours) | 45 Hours - 3 Credits |
| Faculty name | Dr Priya Wahab |
| Contact information | priya.wahab@christcollegepune.org |

## SECTION II

| Course Name: FY BA | Prescribed book - *Initiations: Minor Literary Forms & Basics of Phonology* (Ed. Board of Editors. Orient Black Swan) |
|---|---|
| Total number of clock hours:<br>45 Hrs (Teaching) + 3 Hrs (Internal assessment) = 48 | Credits: 3 |
| Course Objectives | *This course attempts to enable students:*<br>1. To expose students to the basics of literature and language and develop an integrated view about language and literature in them.<br>2. To acquaint them with minor forms of literature in English and help them to appreciate the creative use of language in literature<br>3. To introduce them to the basics of phonology of English so that they can pronounce better and speak English correctly.<br>4. To prepare students to go for detailed study and understanding of literature and language<br>5. To enhance the job potential of students by improving their language skills |
| Course Learning Outcomes | *After learning the course, the students will be able to:*<br>1. Identify the basics of English literature and language.<br>2. Understand the minor forms of literature and use the language creatively.<br>3. Improve their pronunciation skills.<br>4. Be ready for further detailed study of literature and language.<br>5. Enhance their communication skills. |

| Criteria / Weightage/PLO | **CO-PO** | **Excellent (5)** | **Very Good (4)** | **Good (3)** | **Average(2)** | **Needs Improvement(1)** |
| Identify the concepts of HRM in a given context/PLO2.1 | **CO1 - PO1(2)** | Five HRM concepts identified in the given context | Four HRM concepts identified in the given context | Three HRM concepts identified in the given context | Two HRM concepts identified in the given context | One HRM concept identified in the given context |

| | | | | | | |
|---|---|---|---|---|---|---|
| Apply talent acquisition processes/PLO2.1 | **CO2 - PO1(2)** | Talent acquisition processes are defined and applied to address more than two identified problems. | Talent acquisition processes are defined and applied to address two identified problems | Talent acquisition processes are defined and applied to address one identified problem | Talent acquisition processes are defined, but not applied to the context | No talent acquisition processes applied |
| List managerial action to be taken/PLO2.2 | **CO3 - PO1(2)** | More than one managerial action is explained with clarity and addresses major and minor problems in the case | More than one managerial action is explained with clarity and addresses major problems in the case | One managerial action is explained with clarity and addresses a major problem in the case | Managerial action listed does not address the issues in the case | No managerial actions listed |
| Examine business impact of HRM practices/PLO2.2 | **CO3 - PO1(2)** | Impact of HRM practices is well examined, linkage with business context is explained with relevant details, cross functional lens is also applied | Impact of HRM practices is well examined, linkage with business context is explained with relevant details, cross functional lens is not applied | Impact of HRM practices is moderately examined, linkage with business context is explained with incomplete details | Impact of HRM practices is vaguely examined, lacks linkage with business context | Impact of HRM practices is not examined |

*Weightage (Levels) can vary depending on assignments

**CIA 3 – Research Assignment**

**This Assignment is being used for Assessment of Programme Learning Objectives as well.**

**This is an individual assessment, however the work will be done in groups.**

- Students are required to form groups of 5 - 6 members. Students are encouraged to form diverse groups (gender/educational background/work experience).

- Students have to identify ONE HR Practice related to Compensation, Performance Management, Training and Development or Industrial Relations.
    - Each student will review TWO research articles related to the chosen topic. The articles chosen have to be unique – but within the theme of the group.
    - The group will also identify a business initiative/problem related to the chosen theme – This will be from the business news.
    - As a group, they will record a video of their discussions on the business problem and the research perspectives that each one has read about. Students have to introduce themselves before presenting.
    - This video will be between 8 minutes to 10 minutes.
    - At the end of the discussion, individual videos need to be recorded. Here, each student will suggest action points based on the research they have read as well as that presented by the other group members.
    - The key aspect here is how well the student is able to combine different perspectives as presented by others in the group as well as their own understanding.
    - This video will be for a maximum of 2 minutes per student and will be prepared and submitted individually.
- Submission through Google Classroom
- Submission Deadline: 24 January 2022

## Course Plan

| | |
|---|---|
| **Program** | Bachelor of Arts |
| **Course Code & Name** | 21ABEC117 Indian Economic Environment - 1 |
| **Semester** | I |
| **Hours & Credits (1 Credit = 10 hours)** | 48 Hours and 4 Credits |
| **Course Facilitator** | Nikhil-Gaikwad |
| **Faculty Contact information** | Nikhil-Gaikwad<br>Assistant Professor<br>Department of Arts<br>Christ College Pune<br>Mob:9870087049<br>Email Id: Nikhil.gaikwad@christcollegepune.org |

| | |
|---|---|
| **Course Name:** Indian Economic Environment - 1 | **Course Code:** 21ABEC117 |
| **Total number of hours: 48** | **Credits: 4** |
| **Course Description** | The present era is that of structural transformation especially within the country. Moreover, fast changing international scenario and approach of other countries towards our human resource makes it mandatory for the educational system to impart latest knowledge to our students, so that they are prepared to merge themselves in the challenging economic and corporate environment. |
| **Course Objectives** | • To familiarize the students with the recent developments in the Indian Economy<br>• To provide the students with the background of the Indian Economy with focus on contemporary issues like economic environment.<br>• To help the students to prepare for varied competitive examinations<br>• To enable students to understand and comprehend the current business scenario, agricultural scenario and other sectorial growth in the Indian context. To make the student aware of the developments such as MSMEs, Digital Economy, E-Banking, BPO & KPO, etc. |
| **Course Outcome** | • Ability to develop an understanding of the economic environment and the factors affecting economic environment.<br>• Ability to develop awareness on the various new developments in the different sectors of an economy – agriculture, industry, services, banking, etc.<br>• Ability to compare and contrast Indian Economy with other world economies.<br>• At the end of the course, the student should be able discuss and debate on the |

| TOTAL | | | | | 100 |

## ASSESSMENT DESCRITPTION

**CIA 1**

**Description: Analysis of Sorting Algorithms**

**This is a Group Assignment**

- Students are required to form groups of 3 members.
- Students have to identify any one sorting algorithm and analyse the complexity of the algorithm.
- Students will have to present the same in the class with the help of a video or ppt Presentation.
- Submission Deadline: 16th September 2022

**CIA 2**

**Description: Group presentation and documentation preparation based on Linked list operations**

**This is a group assessment.**

- Students are required to form groups of 5 - 6 members. Students are encouraged to form diverse groups (gender/educational background/work experience).
- Each group has to identify any one type of linked list.
    - Each member in the group will explain any one operation performed on the linked list.

- The key aspect here is how well the student is able to combine different perspectives as presented by others in the group as well as their own understanding.
- A document of the same using Book Creator has to be prepared which includes notes, videos, audios etc and uploaded on Google drive and the link to be shared on Google classroom.

- Submission through Google Classroom
- Submission Deadline: 26th September 2022

**CIA 3**

**Description:Quiz**

- This is an individual assessment.
- Multiple choice questions based on Stack will be included in the Quiz
- Submission Deadline: 7th October 2022

**CIA 4**

**Description: Problems based on Trees and AVL Rotation**

- This is an individual assessment.
- A set of Problems based on BST and AVL Rotations have to be solved and submitted by students.
- Students will gain better understanding of the concept and more practice related to the problems.
- Submission: Hard Copy
- Submission Deadline: 17th October 2022
