Department Management

Greetings

Christ College, Pune promotes the holistic development of its students and provides them with opportunities for a practical understanding of theoretical knowledge. As a part of their academic curriculum they are expected to carry out industrial visits/field trips/study tours etc.

We have around 75 students in second year Business Administration - International Business. Our students would like to see the activities that happen in a warehouse and also to get an idea about the software used to manage the activities happening there. We understand that your esteemed company is having a large number of warehouses in Pune. We shall be highly grateful to you if you can permit our students to visit a warehouse near Viman Nagar, Pune, and help them understand the operational processes and gain a practical understanding of the software that is used in the operation.

We would like to visit the warehouse on or before Thursday, 04-05-23.

Expecting a favorable response from you.

Thanks and regards

Evening All

It would be a pleasure to educate and share [illegible] with future talent. However the date you mentioned is too short a notice to manage this big a group.

Appreciate if you could plan it for next week so we can plan better and ensure the students have a great learning experience.

Thanks,
